

# Pneumatic PCB Depanelizer

---

## PCB Depaneler, CWVC-3 Feature:

- Cut any length metal board more safety and easily.
- Separates long boards directly,without turn direction .
- Separates boards up to 2.0mm thick Metal Board
- Shears boards safely with parts as close as 1 mm to the score line,including ceramic capacitors
- Operator foolproof! Panels cannot be inserted into the knives except on the score line
- Handles high components up to50mm
- Bow waves that can occur with round knives are avoided
  
- Easy adjusting of distance between knives

**PCB Depaneler, CWVC-3 Specification:**

Max Cutting Length	No Limite
PCB Material	FR1,FR4, CEM1, CEM3, MCPCB
Application Industry	All electronic industries
PCB Thickness	0.3-3.5mm
Platform Length	1.2M, other length is available
Driven Mode	Air
