

- **ST100 Non-contact voltage detector**

Product No.: ST100

SPECIFICATIONS

AC voltage detection range	about 12 to 1000V (50/60Hz)
Detected Frequency	50/60Hz
Alarm mode	alert user with led and buzzer sound
Zero line and Live line determination	according to detected signal strength to determine it is zero or live wires
Operation temperature range	0~ 40°C
NCV signal strength indication	turn on different led to show out the NCV detected signal strength (weak/middle /strong)
Altitude	Less than 2000 meter
Safety grade	CE CAT. II -1000V /CATIV- 600V
Power	2 X 1.5V AAA battery
